“Sexual health is a state of physical, emotional, mental and social well-being in relation to sexuality; it is not merely the absence of disease, dysfunction or infirmity. Sexual health requires a positive and respectful approach to sexuality and sexual relationships, as well as the possibility of having pleasurable and safe sexual experiences, free of coercion, discrimination, and violence.”

-World Health Organization

What MSU students say and do

- Of MSU students reporting having one sexual partner.

- Of MSU students reported having no sexual partners; meaning about 15,870 MSU students abstain from sex.

- Of MSU students have been tested for HIV.

- Of MSU students reported having unintentionally become pregnant or gotten someone else pregnant during the last 12 months.
